# Regional Controller

## Responsibilities

- regional Controlling for an international region and its subsidiaries (incl. on site support),
- deviation analysis (P&L, balance sheets, Cash Flow),
- planning, budgeting, forecasting & consolidation,
- ad hoc-projects with the subsidiaries,
- development and implementation of KPIs, e.g. for measuring efficiency,
- support of the financial managers in the countries,
- communication with the International Headquarter in Germany,
- reporting to the local management and to the parent company.

## Expectations

- you graduated from university with a degree in economics / business administration, and your major in management accounting/ financial reporting, controlling, financing,
- a minimum of two years of relevant and broad controlling experience, profound knowledge and experience in P&L as well as balance-sheet subjects, ideally in an international company,
- experience in building up accounting and reporting structures as well as the creation of Management-Accounts,
- good knowledge of the international accounting standards (IFRS),
- proficient SAP FI/CO and Microsoft Excel knowledge, Knowledge of Hyperion Financial Management would be an advantage,
- very good written and oral command of English, German would be an asset,
- results oriented, proactive, very dedicated work ethic,
- high developed analytical and conceptual skills,
- willingness to travel occasionally.
